

I. Home occupations. [Amended 7-19-1999 by Ord. No. 99-13 04-58]

It is the intent of this section to allow the operation of home occupations in any residential and agricultural zoning district as an accessory use and to regulate them so that a neighborhood, under normal circumstances, will not be disturbed or inconvenienced. The following conditions shall be met and complied with: [Amended 1-30-2012 by Ord. No. 2011-32]

- (1) All home occupations shall receive a home occupation permit from the City prior to the commencement of business.
- (2) Home occupations shall be conducted only by residents of the principal dwelling unit.
- (3) No more than twenty percent (20%) of the total floor area of a dwelling unit may be devoted to such use and shall not alter the outside appearance of the dwelling unit.
  - (a) A home occupation may also be conducted from a detached accessory structure. The floor area of the principal and accessory structures may not be combined to calculate the allowable square footage of the home occupation. In no event shall the area devoted to use as a home occupation exceed twenty percent (20%) of the total floor area of the principal dwelling unit, regardless of whether the detached accessory structure, the principal dwelling unit, or both are used for the home occupation. [Added 1-30-2012 by Ord. No. 2011-32]
- (4) The principal use of the dwelling unit shall at all time during the conduct of the home occupation remain residential.
- (5) No retail sales shall be conducted on the premises, except that cottage food products, as defined in Chapter 500, Florida Statutes, as amended, may be sold on the premises. [Amended 2-10-2014 by Ord. No. 2013-38]
  - (a) Retail sales shall not include items used in repair services. All parts shall be sold in conjunction with the on-premise repair of an item and shall not be sold individually.
- (6) No signs other than the address and name of the resident.
- (7) No equipment shall be used which creates noise, vibration, glare, fumes, odors or electrical interference objections to the normal senses. No equipment or process shall be used which creates visual or audible interference in any radio or television receiver off the premises or causes fluctuations in line voltage off the premises.
- (8) No home occupation shall generate greater volumes of traffic than would otherwise be expected by normal residential uses.
- (9) No traffic is generated so as to require any additional on-site parking spaces other than those spaces normally utilized by the dwelling unit without the home occupation.
- (10) The granting of a license to conduct a home occupation shall be automatically conditioned upon continued compliance with all the requirements of this section, the right to inspect the premises and provided that all other licenses and permits granted by the City are current. Failure of the occupant to meet these requirements shall

empower the Building Director or designee to revoke the license. The Building Director or designee may also take any action necessary to revoke a certificate of competency or occupational license.

- (11) The approval of a license for a home occupation shall be subject to renewal annually and expire upon a change of ownership of the property. Each home occupation shall be subject to periodic inspections by the North Port Fire Rescue District for compliance with applicable Fire and Life Safety Codes, and the Building Department.
- (12) There shall be no outside storage of materials used in connection with the home occupation. For purposes of this section, trailers used in connection with lawn mowing operations or other similar home occupations involving trailers are exempt from this section, provided that said trailers are in compliance with other City codes and regulations.
- (13) No storage of hazardous material except liquids and fuels customarily used in connection with a home occupation, i.e. gasoline, propane, etc., shall be stored on site but may be stored on or in a motor vehicle or trailer, provided that said motor vehicle or trailer is used in connection with the home occupation. Storage of all fuels shall comply with all applicable local and State Fire and Life Safety Codes. Activities conducted and equipment or material used shall not change the fire safety or occupancy classifications of the premises.
